

Target gene expression profile

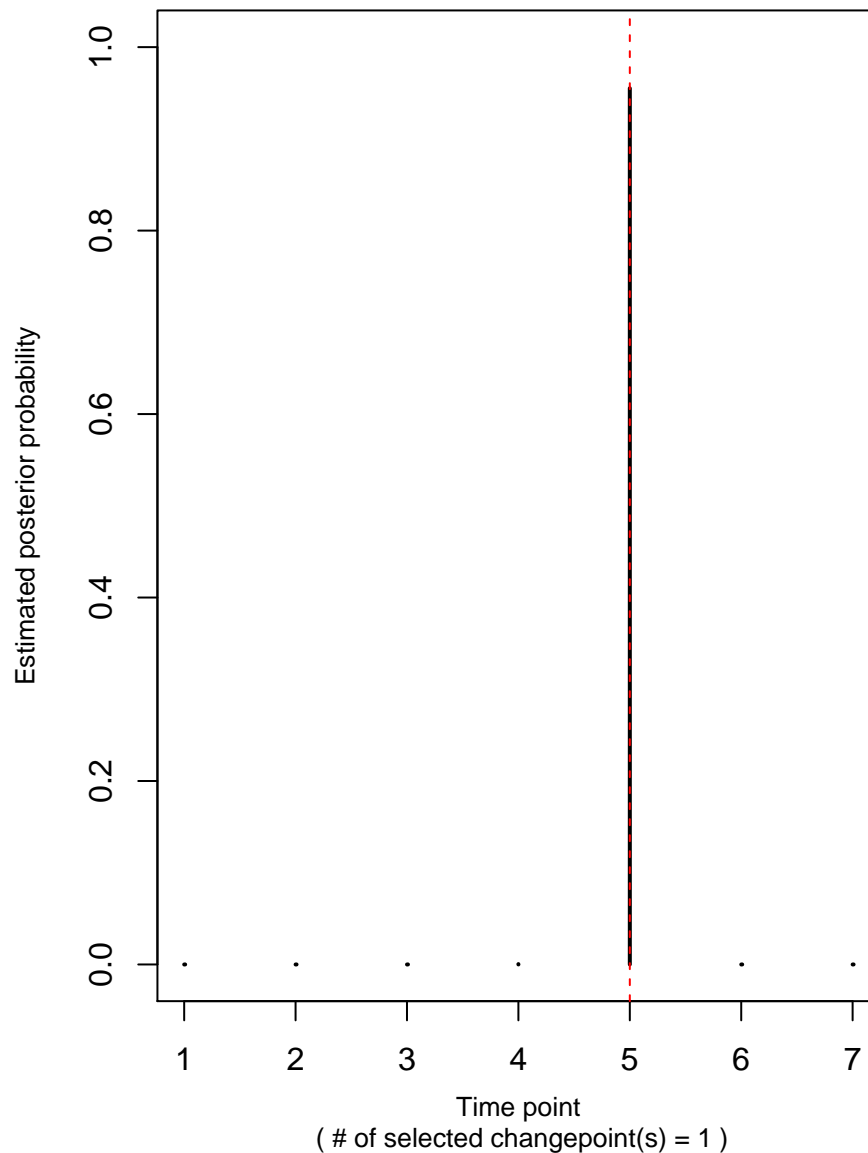

Parent gene expression profiles

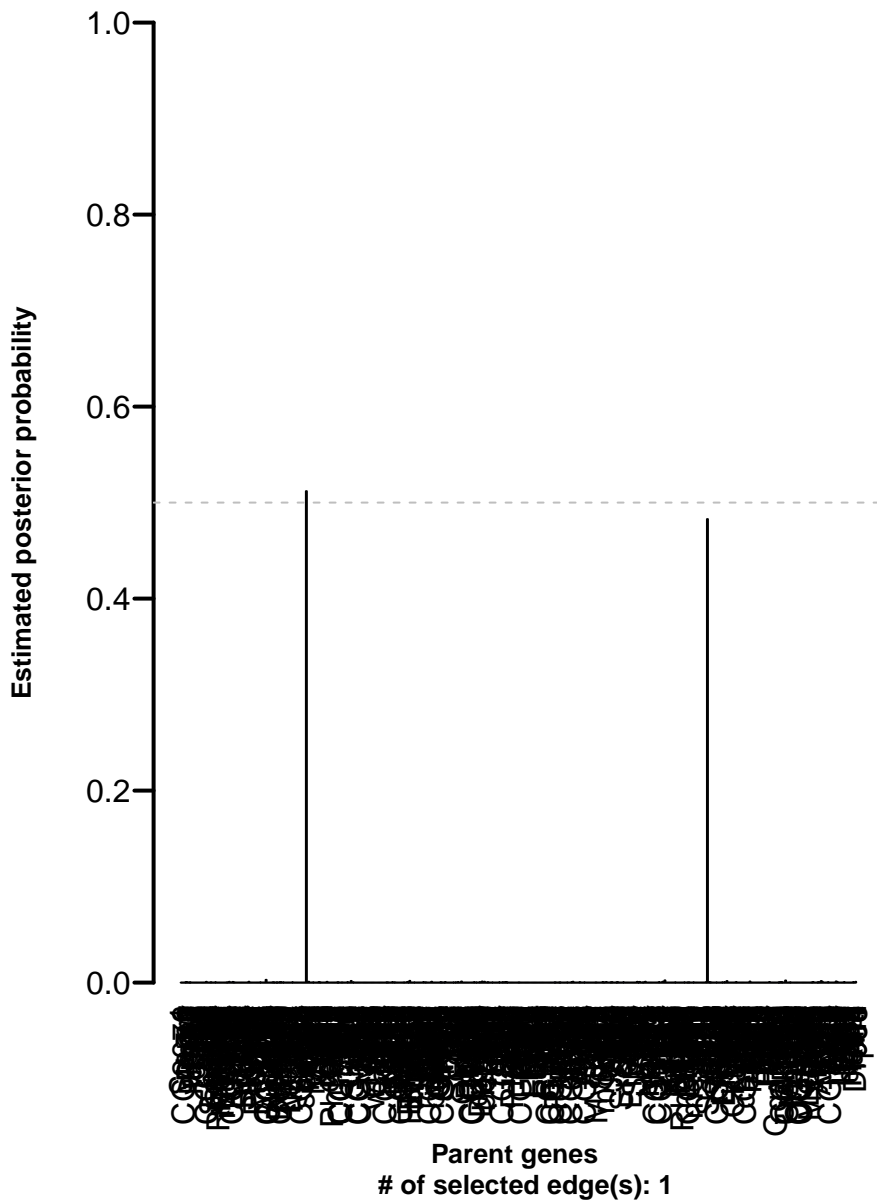

Number of changepoint
– target gene: cnc –

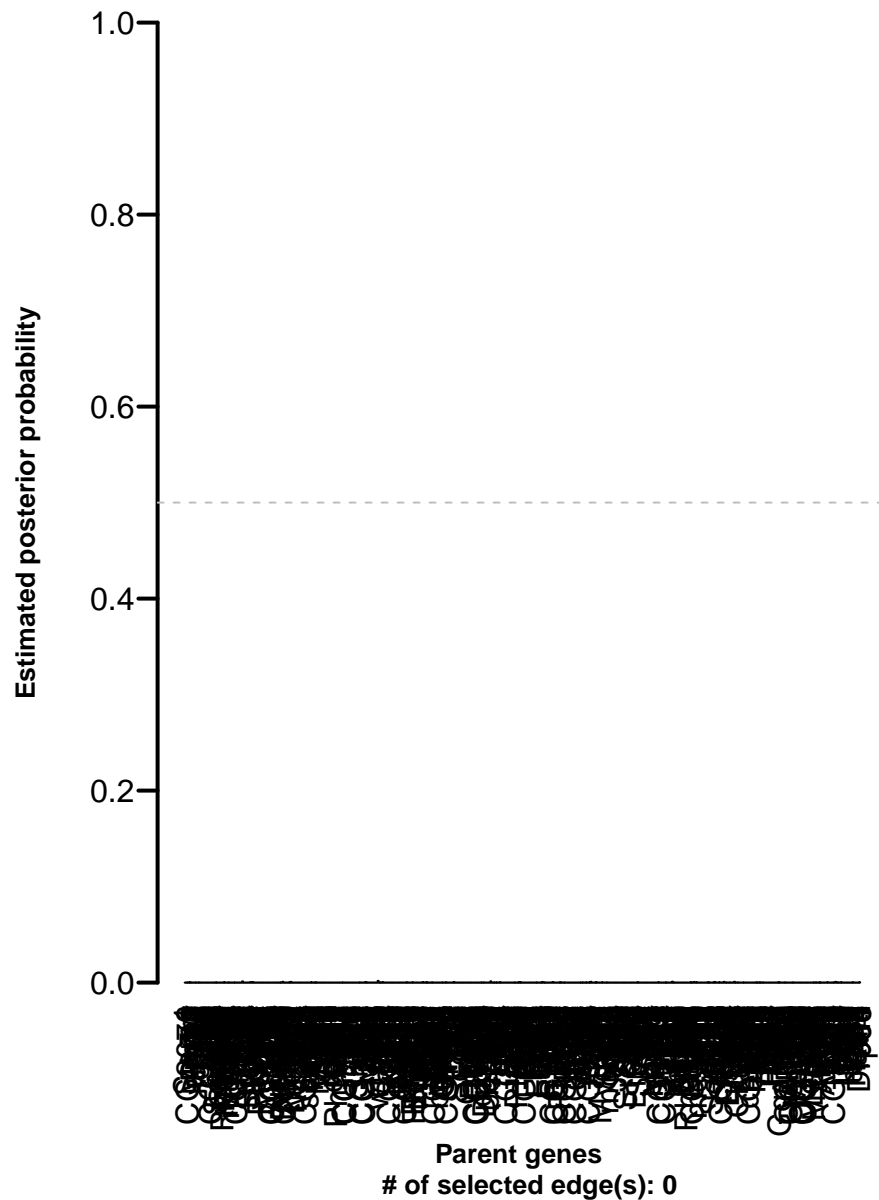

Changepoint position
– target gene: cnc –

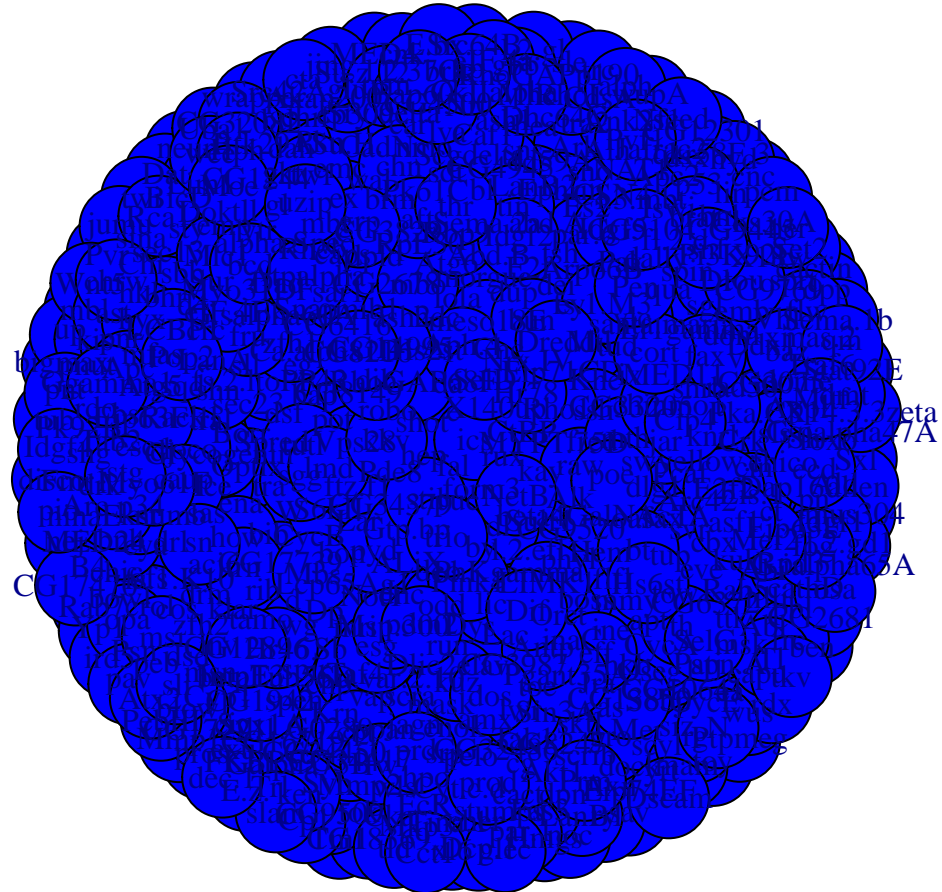

Regulatory model for target gene: *cnc*
Temporal segment # 1 : [2 , 4]

Regulatory model for target gene: *cnc*
Temporal segment # 2 : [5 , 6]

Sub-network # 1
(time point 2 to 4)

[illegible]

— Positive interaction
- - - Negative interaction

ARTIVA summary page
(interactions are arranged in order of decreasing confidence level)

parentGene	targetGene	postProb	CPstart	CPend	interactionSign
