

Target gene expression profile

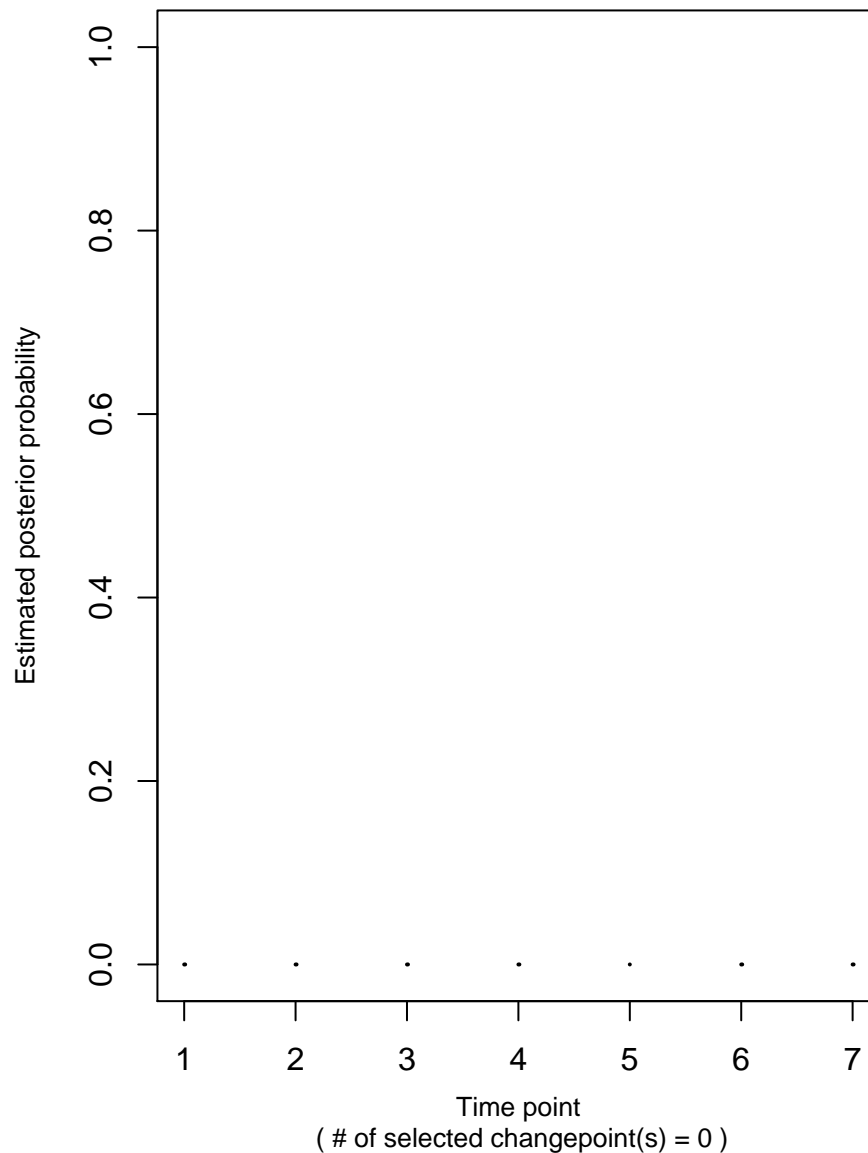

Parent gene expression profiles

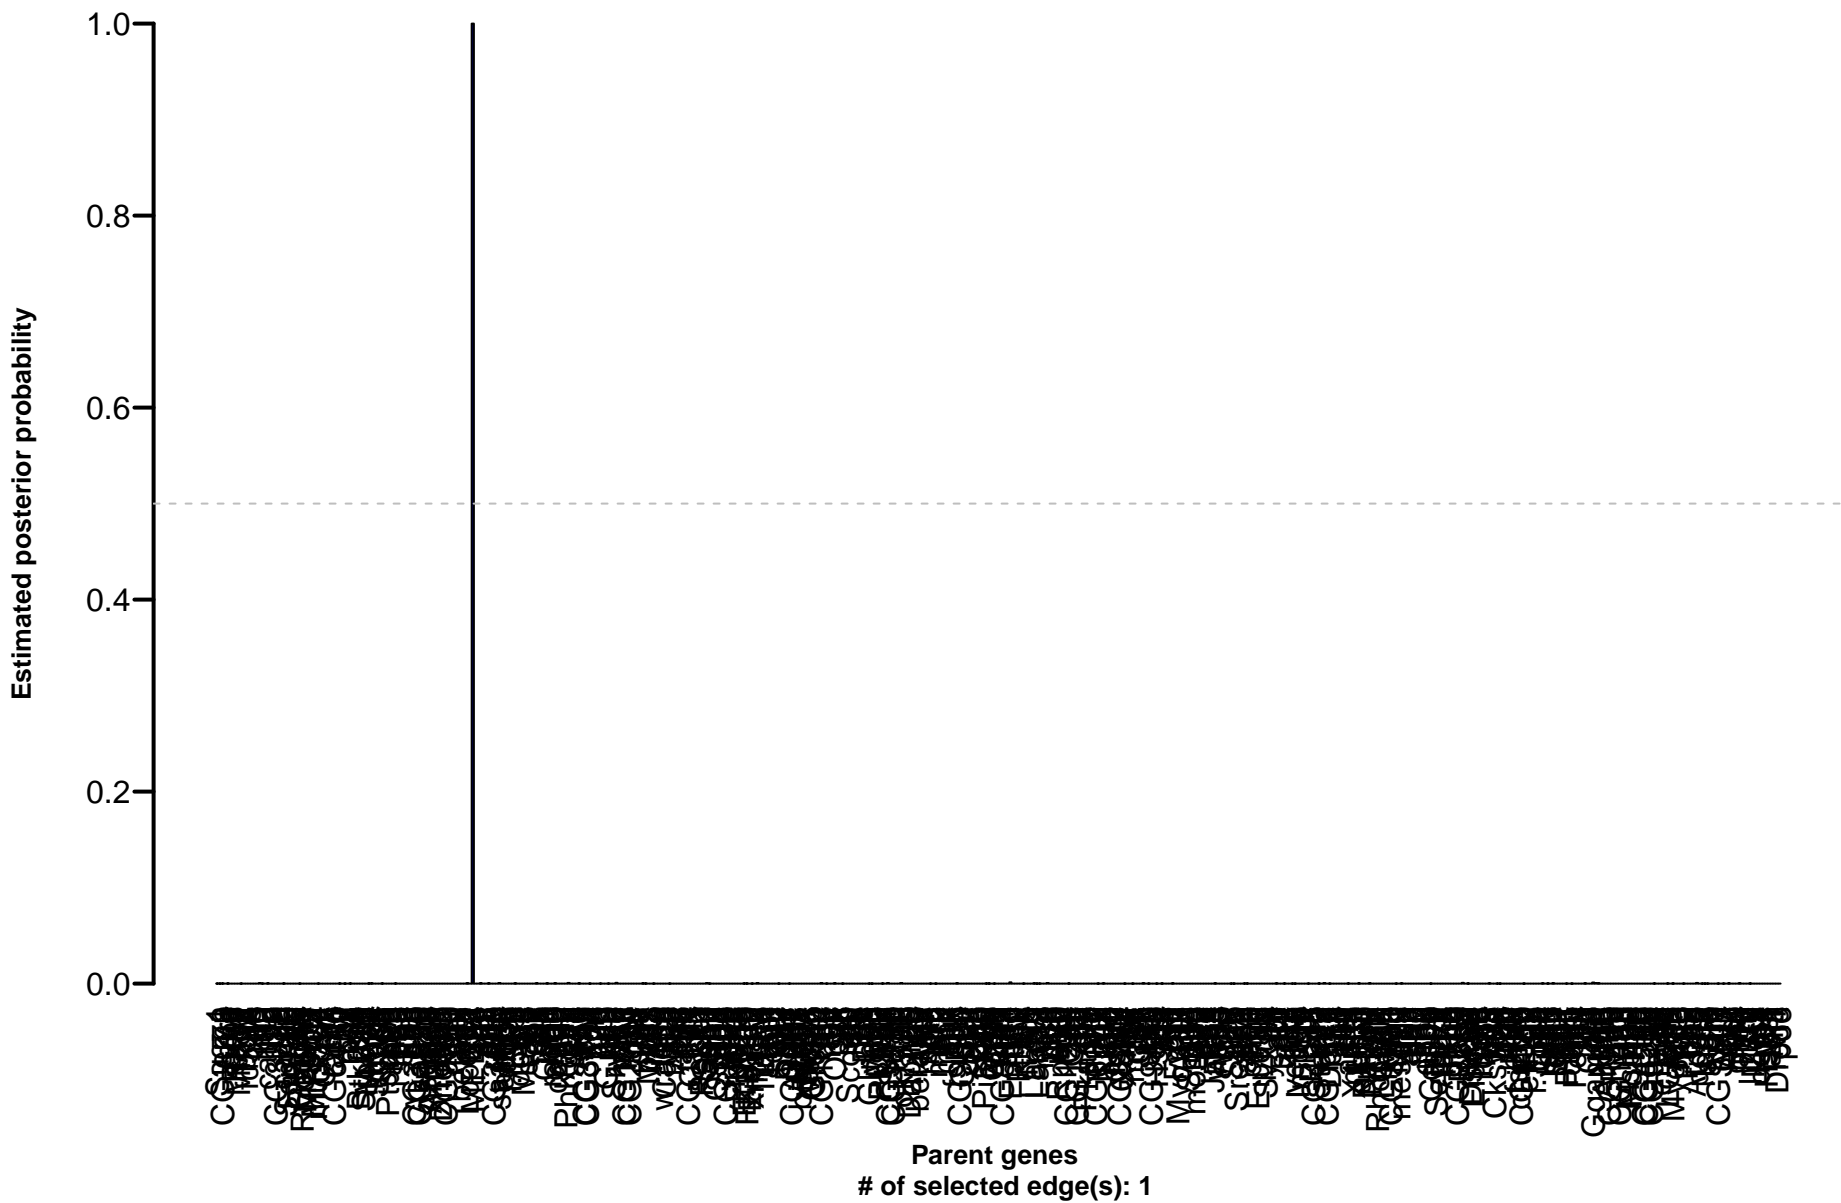

Number of changepoint
– target gene: cnk –

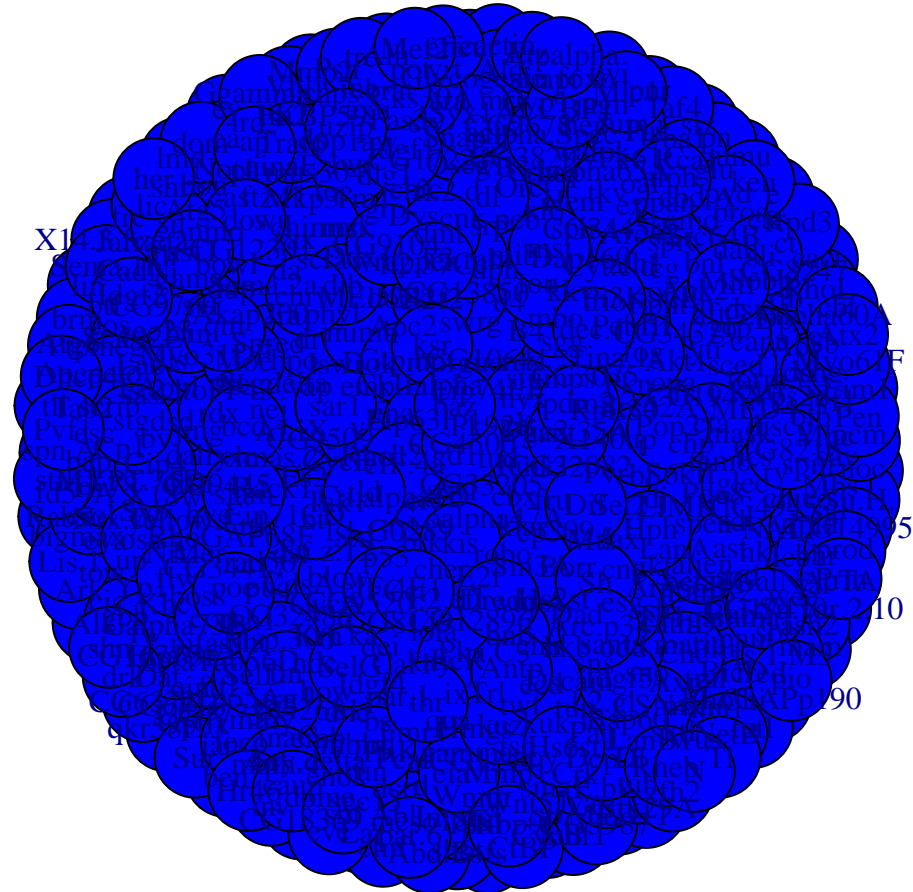

Changepoint position
– target gene: cnk –

Regulatory model for target gene: *cnk*
Temporal segment # 1 : [2 , 6]

Sub-network # 1
(time point 2 to 6)

ARTIVA summary page
(interactions are arranged in order of decreasing confidence level)

parentGene	targetGene	postProb	CPstart	CPend	interactionSign
338	1	1	2	6	+
