

Target gene expression profile

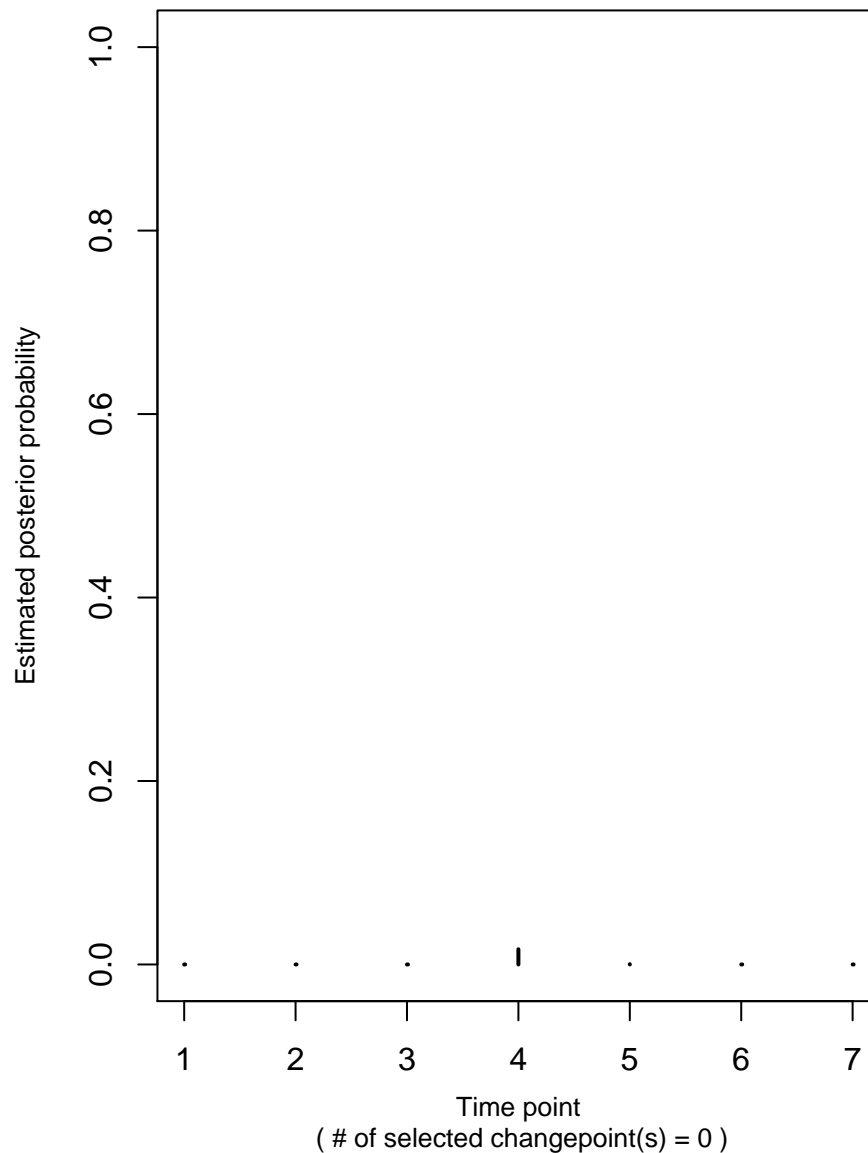

Parent gene expression profiles

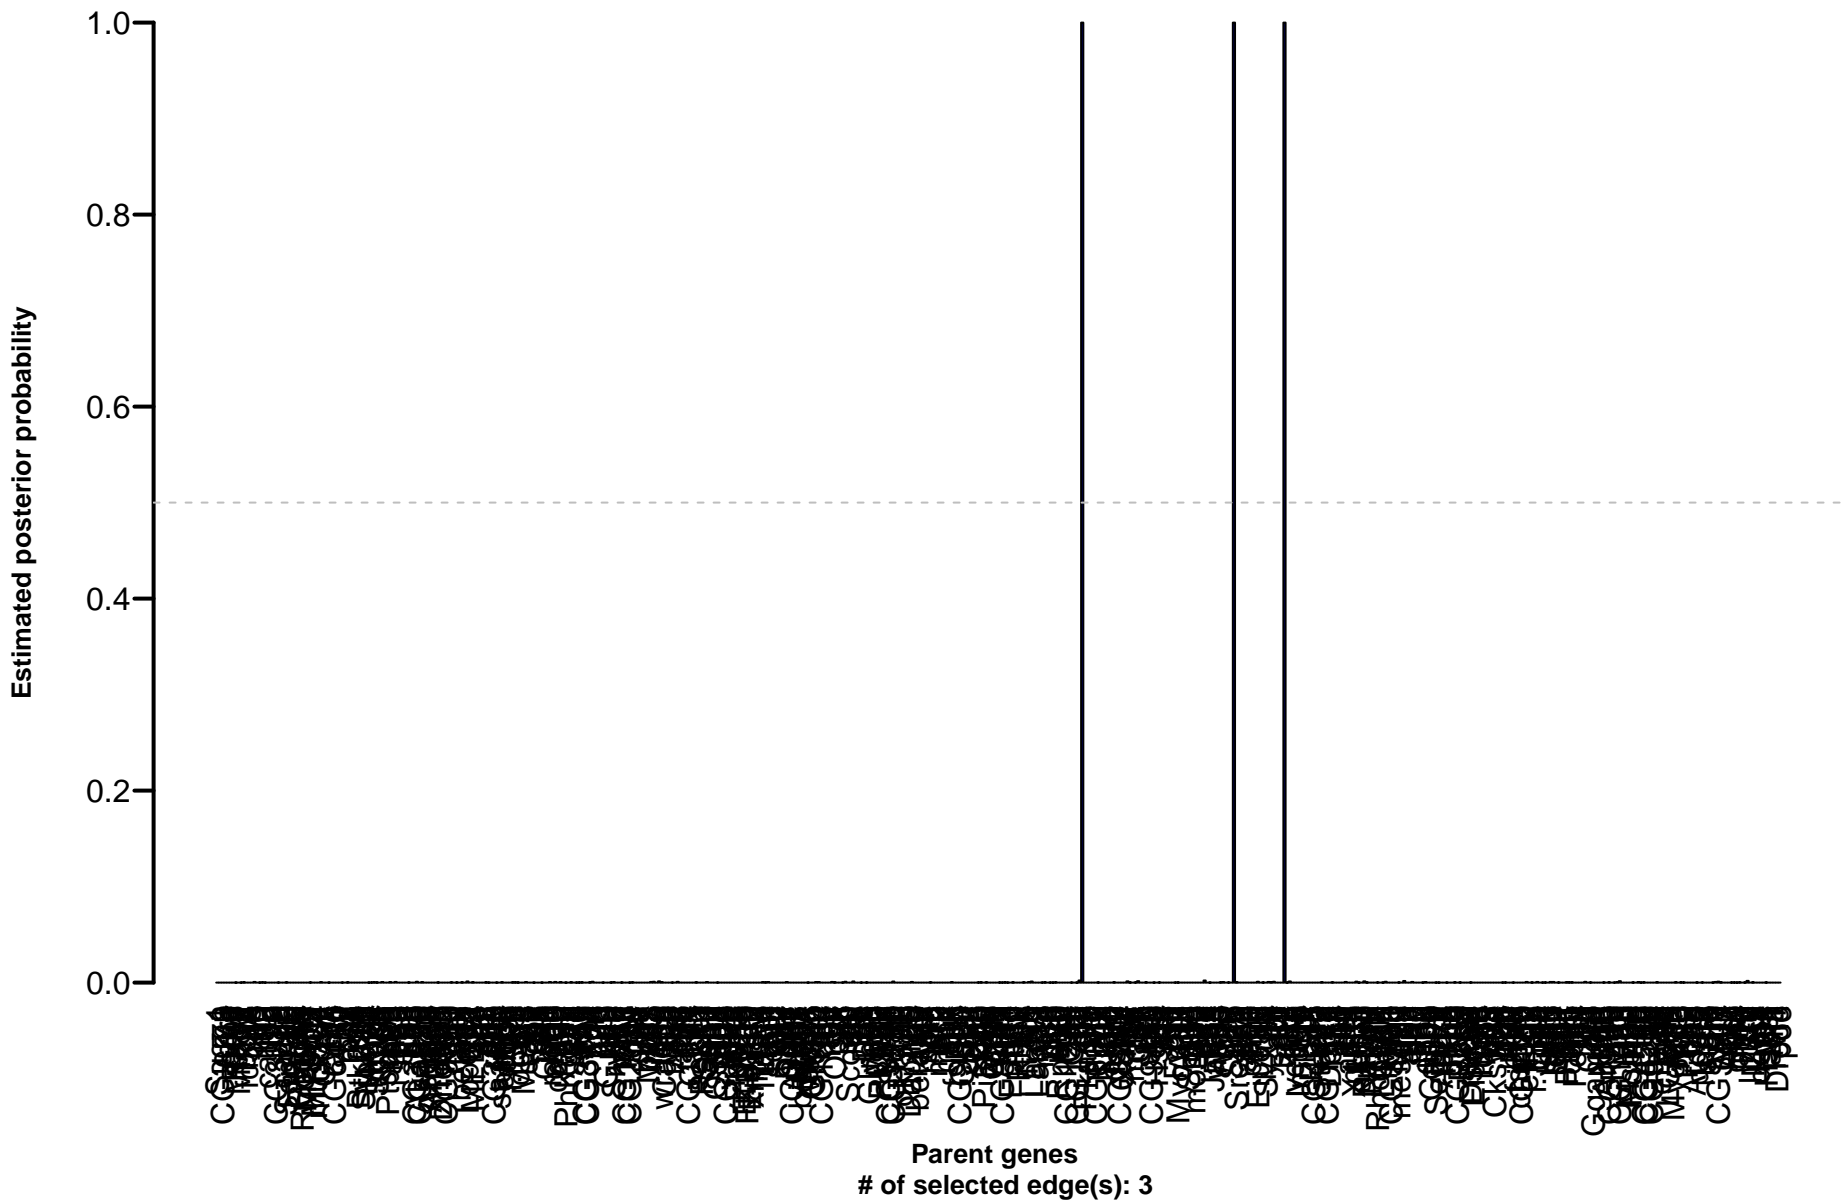

Number of changepoint
– target gene: Pvr –

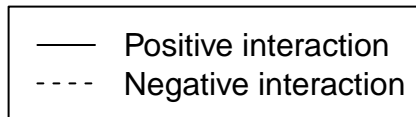

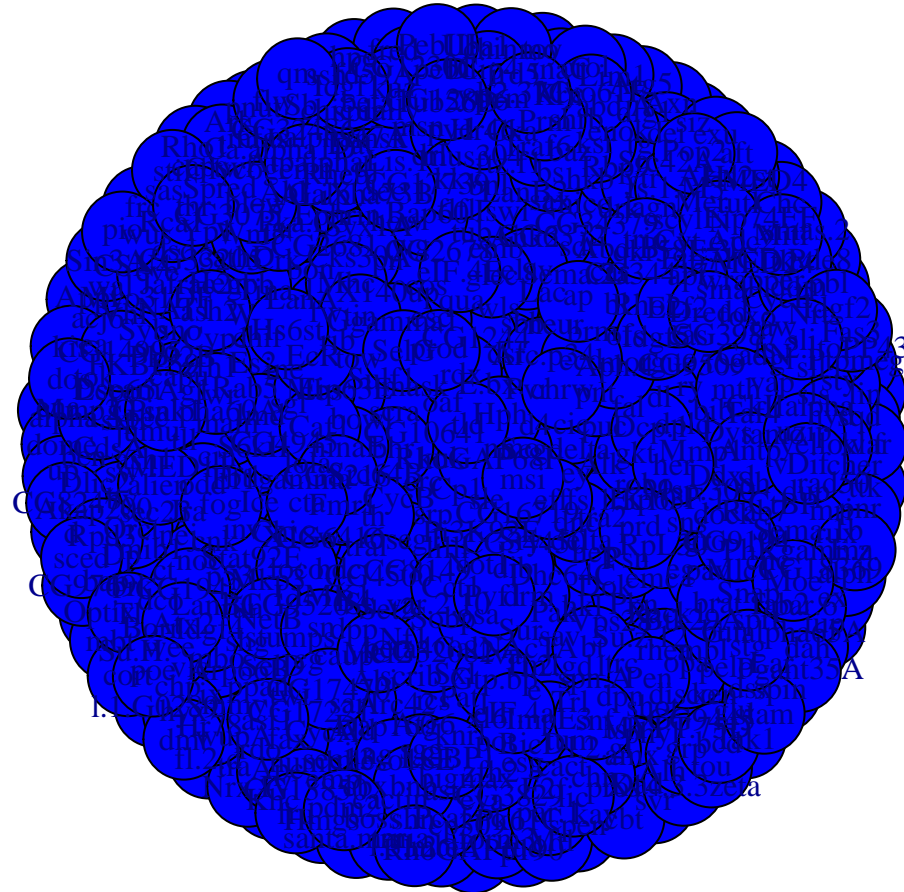

Changepoint position
– target gene: Pvr –

Parent genes
of selected edge(s): 3

Sub-network # 1
(time point 2 to 6)

ARTIVA summary page
(interactions are arranged in order of decreasing confidence level)

parentGene	targetGene	postProb	CPstart	CPend	interactionSign
