

Target gene expression profile

Parent gene expression profiles

Number of changepoint
– target gene: dco –

Changepoint position
– target gene: dco –

Regulatory model for target gene: dco
Temporal segment # 1 : [2 , 6]

[illegible]

— Positive interaction
- - - Negative interaction

ARTIVA summary page
(interactions are arranged in order of decreasing confidence level)

parentGene	targetGene	postProb	CPstart	CPend	interactionSign
517	1	1	2	6	-
471	1	1	2	6	+
36	1	1	2	6	+
