

Target gene expression profile

Parent gene expression profiles

Number of changepoint
– target gene: pyd –

Changepoint position
– target gene: pyd –

Regulatory model for target gene: pyd
Temporal segment # 1 : [2 , 6]

Sub-network # 1
(time point 2 to 6)

ARTIVA summary page
(interactions are arranged in order of decreasing confidence level)

| parentGene | targetGene | postProb | CPstart | CPend | interactionSign |
|-------------------|-------------------|-----------------|----------------|--------------|------------------------|
| 565 | 1 | 1 | 2 | 6 | + |
