

**Target gene expression profile**

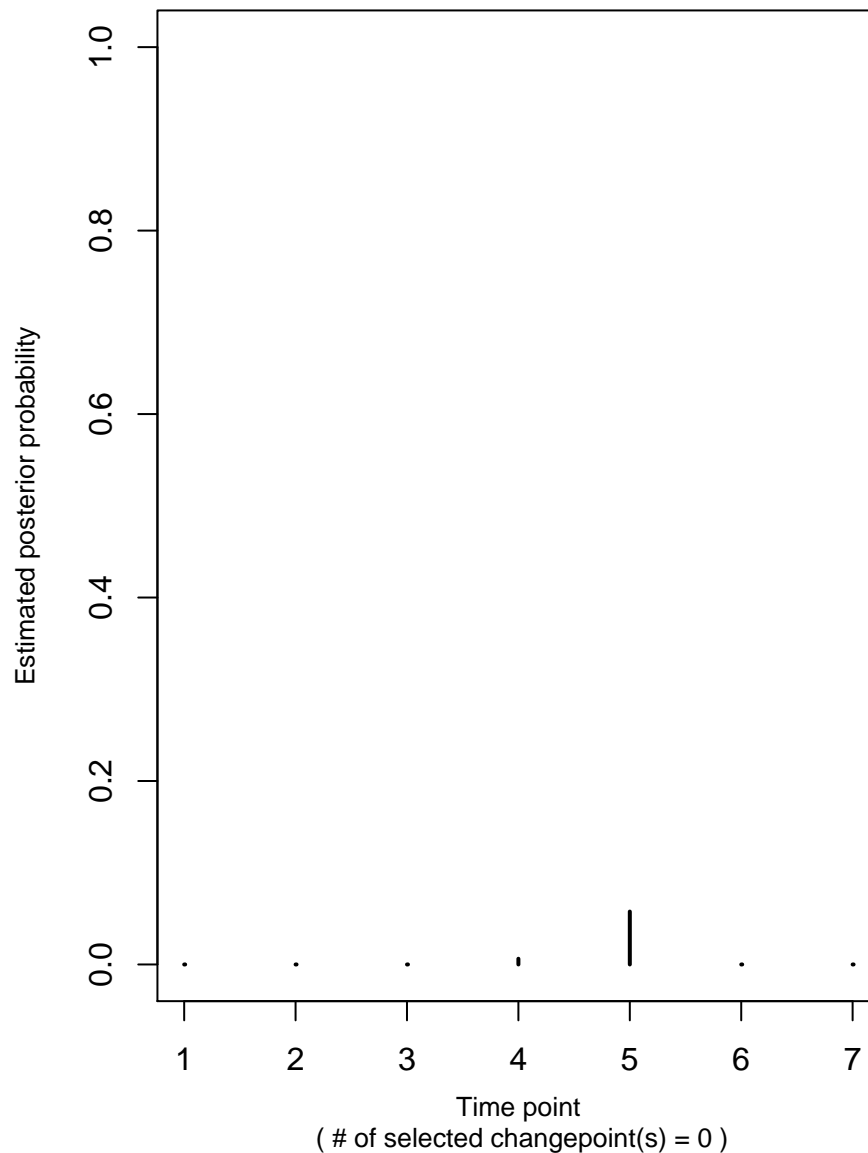

**Parent gene expression profiles**

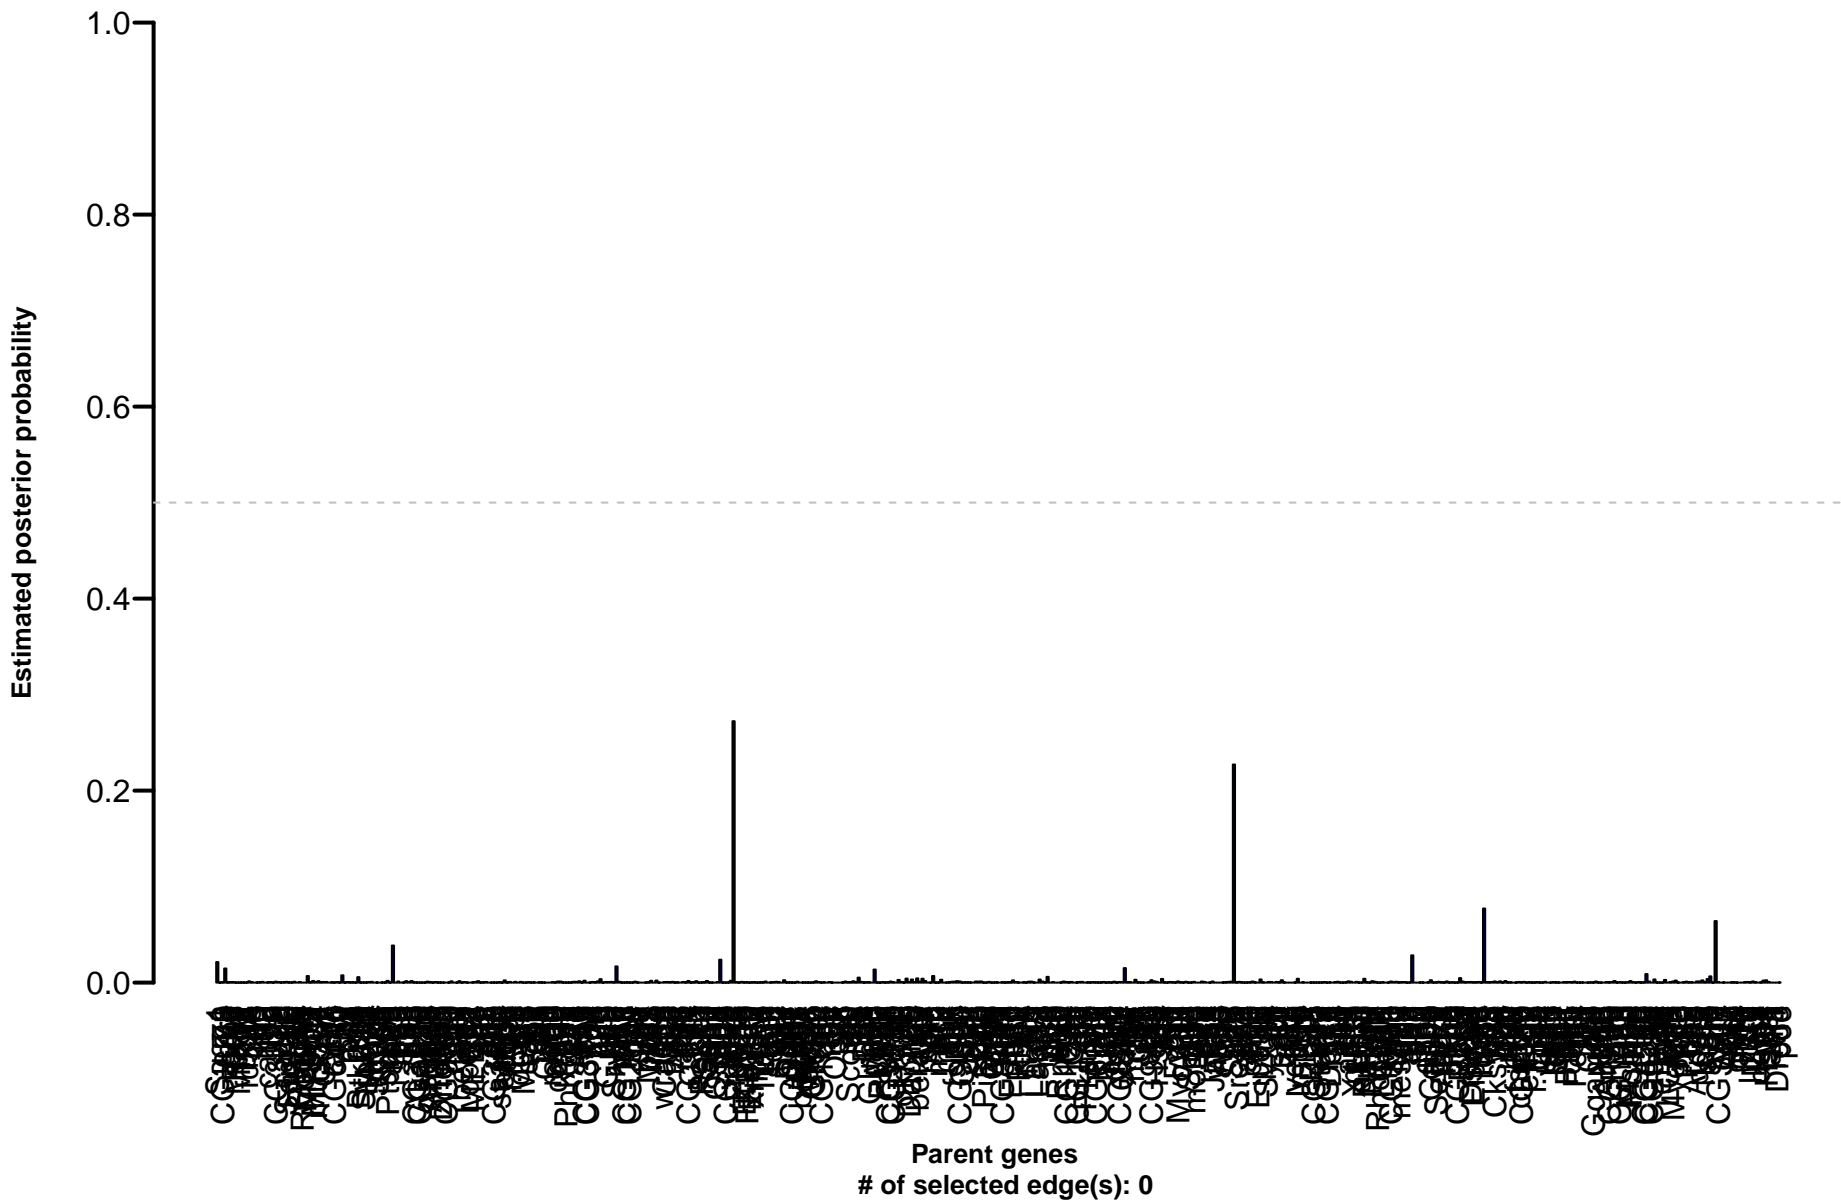

**Number of changepoint**  
– target gene: Akap200 –

**Changepoint position**  
– target gene: Akap200 –

**Temporal segment # 1 : [ 2 , 6 ]**

[illegible]

— Positive interaction  
- - - Negative interaction

**ARTIVA summary page**  
**(interactions are arranged in order of decreasing confidence level)**
