Regulatory model for target gene: *srp*  
Temporal segment # 1 : [ 2 , 6 ]

A circular network diagram showing a dense cluster of nodes and edges. The nodes are represented by blue circles, and the edges are black lines connecting them. The network is circular in shape, with nodes arranged in a ring-like pattern. The nodes are labeled with gene names, including 'CEH3' and 'CEH2' on the left side. The network is highly interconnected, with many edges connecting the nodes.

— Positive interaction  
- - - Negative interaction

**ARTIVA summary page**  
**(interactions are arranged in order of decreasing confidence level)**
