

**Target gene expression profile**

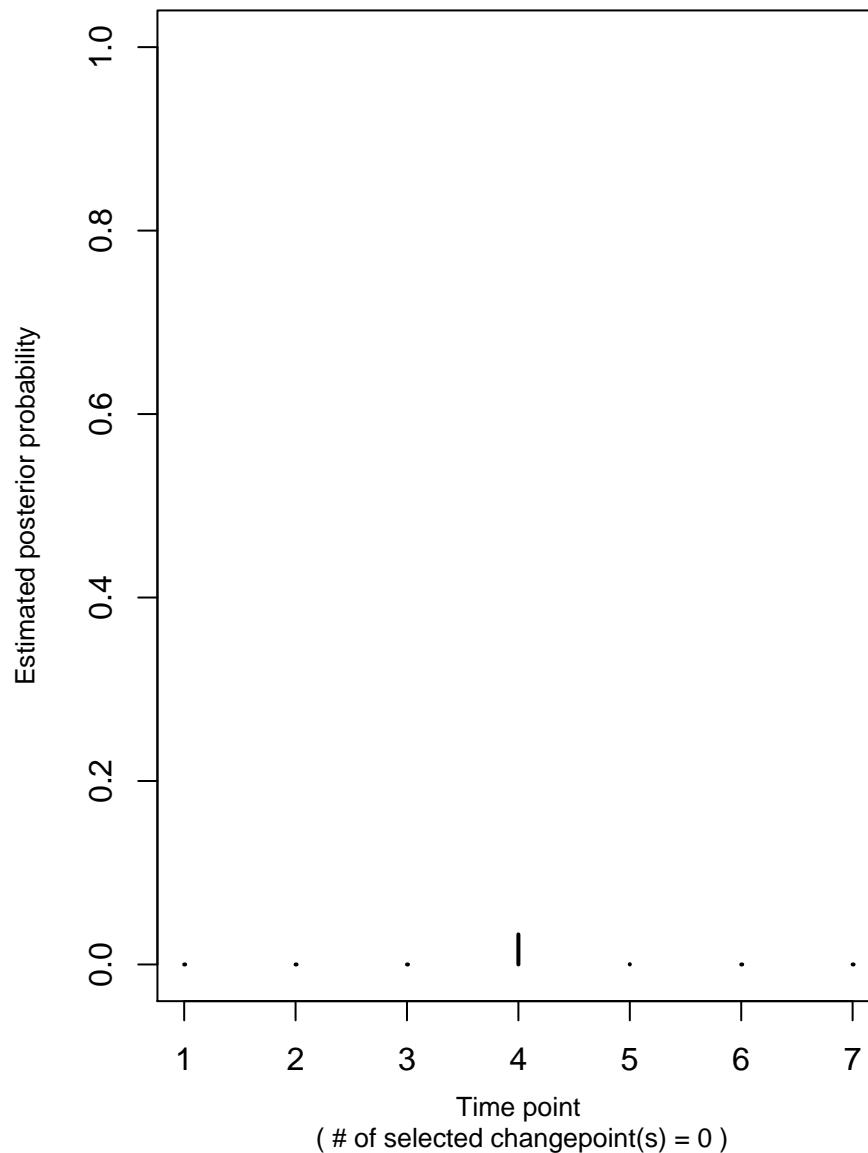

**Parent gene expression profiles**

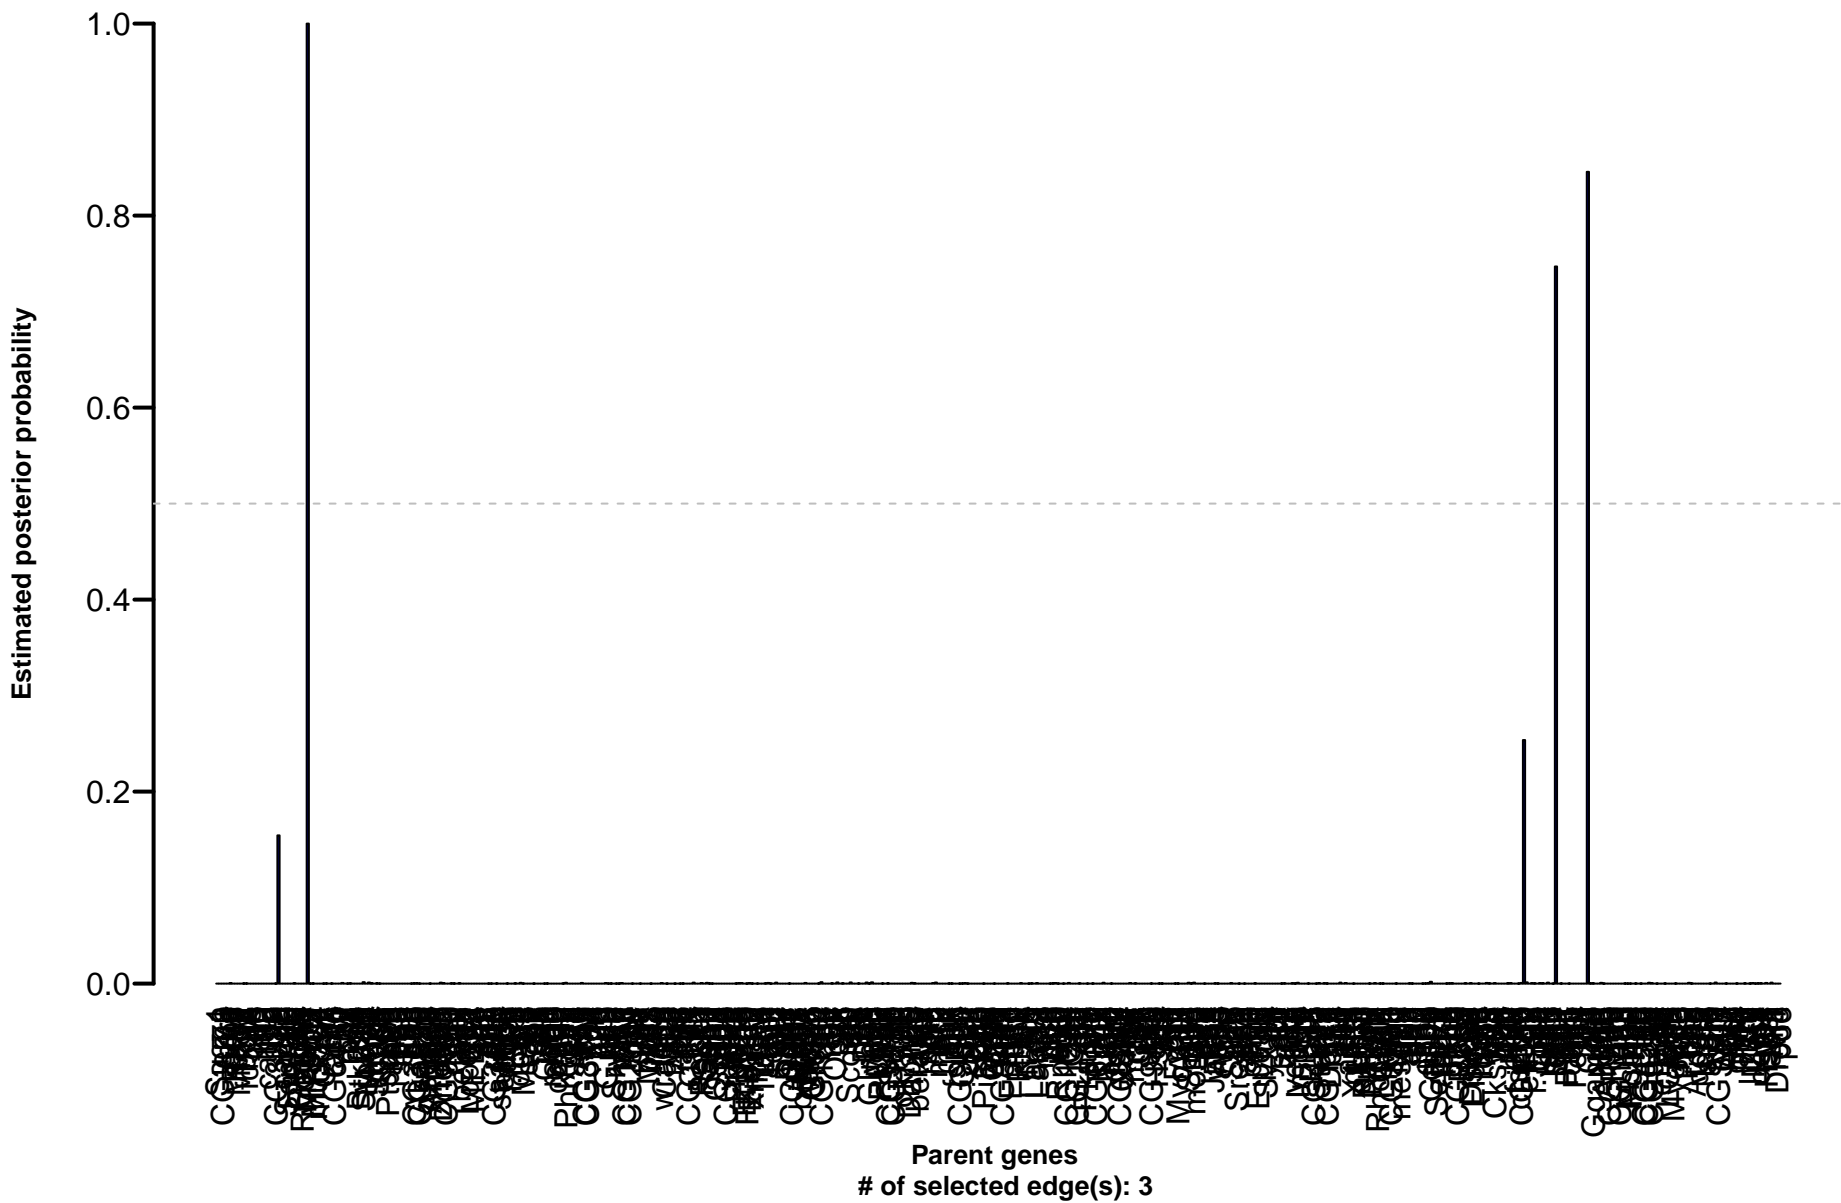

Number of changepoint  
– target gene: Psn –

Changepoint position  
– target gene: Psn –

Regulatory model for target gene: Psn  
Temporal segment # 1 : [ 2 , 6 ]

[illegible]

— Positive interaction  
- - - Negative interaction

**ARTIVA summary page**  
**(interactions are arranged in order of decreasing confidence level)**
