

The graph displays the proportion of the population in the 'Not at all' category for the 'Very important' variable over 30 time points. The y-axis represents the proportion, ranging from 1.0 to 1.8. The x-axis represents the time point, ranging from 0 to 30. The proportion starts at approximately 1.9, drops to 1.0 at time point 7, remains at 1.0 until time point 20, rises back to approximately 1.9 at time point 21, and drops to 1.0 at time point 29.
