## Target gene expression profile

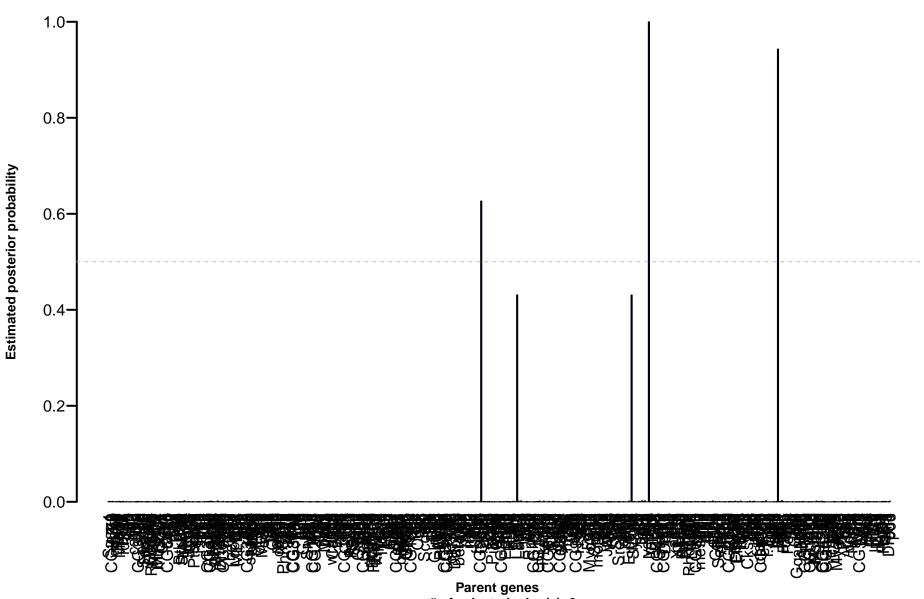

## Parent gene expression profiles

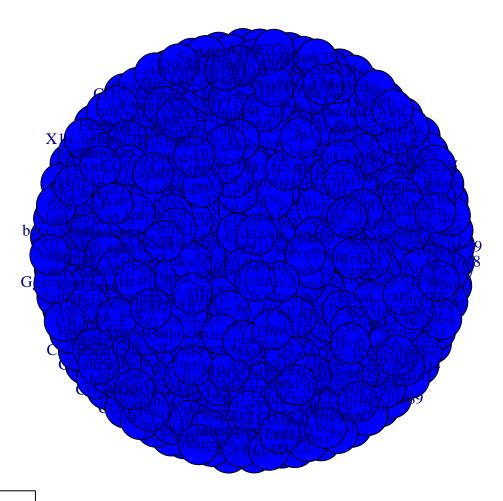

Regulatory model for target gene: Vps28
Temporal segment # 1 : [ 2 , 6 ]

# of selected edge(s): 3

Sub-network # 1 ( time point 2 to 6 )

Positive interaction

---- Negative interaction

## ARTIVA summary page (interactions are arranged in order of decreasing confidence level)

interactionSign	<b>CPend</b>	<b>CPstart</b>	postProb	targetGene	parentGene
